Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Monday 26 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Turning more changeable, with frequent showers.

This Evening and Tonight:
The evening kicks off with clear skies across the region, but some cloud begins to move in for some northern parts into the night. Where skies remain clear to the west, some frost may form. Minimum temperature 2 deg C (36 deg F).

Tuesday:
Patchy cloud covers most of the region, still giving occasional sunny spell. Scattered showers then move in later in the afternoon and continue into the night. Maximum temperature 15 deg C (59 deg F).

Outlook for Wednesday to Friday:
Patchy cloud with scattered showers interspersed with the occasional sunny spell through Wednesday into Friday. Light winds throughout.
